The Alaska Department of Transportation & Public Facilities (DOT&PF) is planning to reconstruct Knik Goose Bay Road from Centaur Avenue to Vine Road. The goal of the project is to improve safety, enhance mobility for people and freight, implement access management, and reduce congestion along this corridor.

The DOT&PF Preliminary Design Team has refined the preliminary concept and is preparing an Environmental Assessment to determine impacts.

You're Invited!

Please drop by the Wasilla Senior Center on Wednesday, April 16, 2014 from 4—7PM to learn more about the project, refinements to the preliminary concept, and what the next steps are towards design and construction. The DOT&PF project team will have project graphics on display and be available to answer questions about this important project.
